Message from the Mayor

Good day, everyone. I hope you have recovered from the holidays and all that goes with it. It's always risky commenting on the weather because in the past, I have been accused of jinxing our mild winter. SOOO, I won't mention it.

By now, you've undoubtedly heard the city has hired a new Clerk/Treasurer, Kynda Browning. She comes with a wealth of knowledge and experience, and she is familiar with the city, as she was a previous Clerk/Treasurer for Tekoa. Although the job has evolved during her absence, I'm sure she will pick up the changes quickly and dive into doing the work of the city. I want to take this time to thank Deputy Clerk, Nikki Jensen, for holding down the fort during the transition, and previous Clerk/Treasurer, Eliza Evans-Teague, for handing over such a tightly run ship. We are incredibly fortunate to have had the staff we have. You don't have to look very far to find communities that need office staff. Stop in and say, "Thank you," when you get a chance. In the near future, the city will be going to paperless billing. This process will save the city considerable expense, postage, paper, envelopes, and time. Those of you who wish to opt out can do so by notifying the office when we get closer to the rollout date. The newsletter and the information that goes with it will be included in the Email you receive along with your utility bill. We've considered this for a few years, and it just seems the time is right.

Public Works is getting by with a bit of a short crew. Everything seems to be going fine as long as I don't jinx us. We will be monitoring Jeff's progress and developing a plan for the future. He's working his tail off to get back, so if you see him, root him on. Steven recently passed the third accreditation he needed to run the city's water system and sewer plant, no small feat. I'm not sure it's record time, but it is ahead of what I expected. The weather has helped with some outside projects we normally wouldn't have been able to get to. If you want a really good update on the sewer plant, check out the second meeting in the January city council meeting. The council went through several different options and had several questions answered by an engineer.

That seems like more than enough for now. Thanks for your time, and we will talk again in March. Roy

"Strength is not found in the loudest voice, but in the shared purpose that binds us."

The city is planning on implementing electronic utility billing in February; everyone with an email address on file will receive their bill and newsletter electronically. If you choose to opt out, please call City Hall.
